

# Origami's Reflection on HaShem

By: Lisa B. Corfman – מורה בילה

HaShem is infinite.

HaShem is one.

What is the bridge?

ORIGAMI via GEMETRIA!

In its roots, origami (אוריגמי) has light (אור/ור) in it.

The numeral value of origami is 270.

Paper (נייר/er'ne) also has the numeral value or 270.

Hence, origami and paper hold light – This complex numeral system is gematria.

Math is infinite (Example: Pi) – Math is energy.

Paper is finite – Paper is matter.

Paperfolding bridges the infinite and the finite.

Mankind tends the wick, kindling the flame, by carefully positioning the folds of the oil.

Origami is an art with creation.

It is finite matter, yet its design has math that is infinite.

In paperfolding, we see the folded candle and feel the energetic fire.

This artistic technique is the bridge to see energy, and to feel matter.

Like paper, mankind is finite – Mankind is matter.

Mankind is incredible and creates.

All the while, mankind does fold origami.

A basis of our creation by HaShem is DNA, we fold and expand.

WE ARE ORIGAMI!

## Paperfolding Gematria Numeral Value

Light – אור	207
Origami – אוריגמי	270
Paper – נייר	270
Fold – קיפולי	236
